PwC refers to the PwC network and/or one or more of its member firms, each of which is a separate legal entity. Please see www.pwc.com/structure for further details.

With the increase in globalisation and cross-border activity, tax payers often need access to details of current tax rates and major features of the tax laws in a wide range of jurisdictions.

Worldwide Tax Summaries (WWTS) is an online summary of basic information about corporate and individual taxes in 153 countries worldwide.

The country summaries are prepared by local PwC tax specialists, who are fully aware of changes in legislation, both actual and planned, and who understand these changes in detail. The summaries include information about residency, income, deductions, tax credits, tax administration, other taxes, and tax rates and are updated to reflect any significant developments in local tax regimes within 30 days, so that you can be sure you have current details, at your fingertips.

With an easy-to-use country navigation tool, new search box technology that pinpoints key terms in a summary, and Quick Charts to provide you with access to country-by-country tax rate and due date information in an easy-to-use chart format, we hope the Worldwide Tax Summaries online will be a useful reference tool to help you manage your organisation's taxes around the world.
